and gone and we want to commence fixing for the 1916 fair. When we see the great assemblage of people that has come to take part in our county fair and find us without any place to show our live stock, not a place to show a saddle horse, no wonder the Fair Association has begun to take steps to prepare a place to hold the ext fair. There is no reason why Law rence county should not be in line the other counties of the State, I think as good people live in Lawrence county as live anywhere and why not tak hold of the opportunities that we his now have 'I can see the interest a growing. Less than three years og I commenced to talk pure bred cuttle to the people in this county, not only that but bought a herd of breeding stock. Look at the good herds of cattle that are being started in the coun-ty and we are shipping them and send ing them to all parts of the country and to different counties in the State. I have just shipped one fine male call to Judge John Ford, of Regina, Pike county, Ky. Also sold to Philip Freece one in Lawrence county, and G. B. Beicher sold Millon McDowell of John-Glenwood Stock Farm son county one calf, so we are expect-ing the cattle of our county to be great improved in a few years. Cattle breeding and raising is the greatest in dustry in the county, then why not have good ones. Commence right now to raise something for the 1916 fair, A few good sheep is a good thing on farm. They will clean the weeds of land and give you wool in return be-sides the increase.

When we get better live stock, betr roads, more grass, then our county will be more inviting to men hunting homes and our young men that are being sent out to battle with the world will want to stay on the farm, so let all hands roll a wheel. V. B. SHORTRIDGE.
